2. *Fund Financial Statements -*
   The accompanying basic financial statements have been generally prepared under the cash basis of accounting. Modifications to this cash basis have been made to the degree that warehouse inventory assets exist and do not show as disbursements until they are consumed. Also, modifications show as liabilities any amounts that have been payroll deducted but not yet disbursed as of August 31, 2025. The statement of activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a specific function. Taxes and other items not properly included among program revenues are reported as general receipts.

   Separate financial statements are provided for governmental funds and proprietary funds.

   Proprietary funds are used to account for the District's business type activities. Proprietary funds distinguish operating receipts and disbursements from non-operating items. Operating receipts and disbursements generally result from providing services, producing and delivering goods for a proprietary fund's principal ongoing operations. All receipts and disbursements not meeting this definition are reported as non-operating receipts and disbursements. The school lunch fund is considered a proprietary fund.

3. *Notes to the Financial Statements -*
   The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide an expanded explanation and detail regarding the information reported in the statements.

4. *Supplementary Information -*
   The supplementary schedules shown in the report detail budgeted functions against actual activity. Disbursements by function and receipts by source are listed. A detailed listing of federal program disbursements are present and supported by the Single Audit Act requirements shown in the Supplementary Schedule of Expenditures of Federal Awards.

   The only non-required supplemental information appears toward the end of this report and consists of a schedule of all bonded debt outstanding and payable by the District. Each issue is shown separately and all remaining principal balances as of August 31, 2025 are shown.

Financial Highlights

The district financial position remains strong. The following condensed financial information comparing the current year to the prior year for the district's governmental activities which include the General Fund, Special Building Fund, Bond Fund, Activity Fund, Student Fee Fund, Cooperative Fund and Depreciation Fund and the business-type activities consisting of our School Lunch Fund. All figures reported are in thousands.
