Total fund balance - governmental fund	$ 3,023,554	
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets, net of accumulated depreciation used in governmental activities, are not financial resources and, therefore, are not reported in the funds.		26,483,852
Net pension assets for pension plans are not recognized in the governemental funds.		34,375
Deferred outflows of resources and deferred inflows of resources are created as a result of various differences related to pensions that are not recognized in the governmental funds.		12,382
Unavailable revenues represents funds not available in the current period and, therefore, are not recognized as revenue in the governmental funds.		133,088
Compensated absences are not due and payable in the current period, and therefore, are not reported as liabilities in the funds.		(51,691)
Long-term debt and related accrued interest are not current financial liabilities therefore, are not reported in the governmental funds.		(2,446,520)
Total net position - governmental activities		$ 27,189,040

Fund balance - end of year	$ 3,023,554
Reconciliation of Change in Fund Blanace to Change in Net Position	
Change in fund balance - governmental fund	$ (156,273)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their useful lives as depreciation expense. This is the amount by which capital outlay ($1,924,943) was less than depreciation ($1,852,133) and loss on disposal ($1,010,601) in the current period.	(937,791)
Governmental funds recognized pension contributions as expenditures at the time of payment, whereas the Statement of Activities factors in items related to pensions on a full accrual perspective.	29,468
Delinquent property taxes receivable will be collected in subsequent years, but are not available soon enough to pay for the current period's expenditures and therefore, are deferred in the funds.	(9,122)
Compensated absences are recognized as paid in the governmental funds but recognized as the expense is incurred in the Statement of Activities.	(13,678)
Loans are reported as expenditures when paid and as an other financing source when received in the governmental funds. However, there is no impact in the Statement of Activities when loans are made or repaid. This amount represents the change in the long-term debt.	289,429
Change in net position of governmental activities	$ (797,967)

Note to Budgetary Comparison Schedule

NOTE 1 – BUDGETARY ACCOUNTING

The Airport prepares its budget on the cash basis of accounting. Accordingly, revenues are recognized when cash is received by the Airport and expenditures are recognized when disbursed. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this method of accounting, all unexpended appropriations lapse at the end of the budget year.
