## Financial Highlights

The Authority's financial statements presented for financial analysis are the Statement of Net Position – Proprietary Funds, the Statement of Revenues, Expenses and Changes in Fund Net Position – Proprietary Funds, and the Statement of Cash Flows – Proprietary Funds. The Statement of Net Position – Proprietary Funds provides a summary of the Authority's assets, deferred outflow of resources, liabilities, and deferred inflow of resources as of the close of business on September 30. The Statement of Revenues, Expenses, and Changes in Fund Net Position – Proprietary Funds summarizes the revenues and sources of those revenues generated during the year ended September 30 and the expenses incurred in operating the Authority for the year ended September 30.

The Authority accounts for its public housing activities in two related programs. The Authority has a low rent program that provides housing for qualified tenants and a capital fund program that the Authority uses for improvements to its low rent properties. The Authority also has a Housing Choice Voucher program that provides housing to low-income families, the elderly and the disabled. Lastly, the Authority has Non-Federal Funds that are used at the discretion of the Authority.

Our analysis below focuses on the net position and the change in net position of the Authority as a whole and not the individual programs.

Total assets for the year ended September 30, 2024, were $3,325,095 and $3,344,237 at September 30, 2025. This increase of $19,142, or 0.6%, is attributable to an increase in current and other assets, offset by a decrease in capital assets. The majority of the increase in current assets was due to an increase in cash as a result of positive cash flow from operations for the year. Other assets increased due to the recognition of a right-of-use asset, related to a multi-year software subscription service, as required by GASB 96. Capital assets decreased due to current year depreciation exceeding current year capital asset additions.

Total liabilities for the year decreased $12,055 or 10.9%, due to decreases in both current and noncurrent liabilities. Current liabilities decreased due to decreases in accounts payable, accrued wages and payroll taxes payable, and prepaid rent. Noncurrent liabilities decreased due to a decrease in the noncurrent portion of accrued compensated absences.

It is apparent from the above schedule that total revenue decreased for the year ended September 30, 2025, when compared with the prior year. The majority of this decrease is due to decreases in operating grants, capital grants, housing assistance payments, and other income. The Authority received a greater amount of HAP revenue in the prior year, when compared to the current year, through its Housing Choice Voucher program. The Authority also drew down a greater amount of capital grant funds in the prior year, when compared to the current year, through its Capital Fund Program. Capital grant funds are recognized as they are expended. Decreases were offset by increases in tenant revenue, admin fees earned, non-dwelling rent, investment income, and gain on sale of capital assets.

Total expenses of the Authority decreased $9,405, or 0.7%, for the year ended September 30, 2025. The majority of this decrease is due to decreases in administrative, ordinary maintenance and operations, general, and extraordinary maintenance expenses. Administrative expenses were higher in the prior year due to the Authority hiring and training its new Executive Director, prior to the retirement of the previous Executive Director.

Decreases were offset by increases in utilities, insurance, housing assistance payments, and depreciation and amortization expenses. Housing assistance payments are funded in arrears, so the expectation is that if the Authority utilizes reserves to increase housing assistance payments expense, there will be an increase in housing assistance payments revenue.

**Capital Assets**

At September 30, 2025, the Authority had $1,259,181 invested in net capital assets. This amount represents a net decrease of $99,217 which is due to current year depreciation being in excess of current year capital asset additions.

Some of the current year major additions/expenditures were: Water heaters, flooring, landscaping, and entry doors.

The Authority has $267,429 in the 2024 and 2025 capital fund program grants to draw down and spend in the future.

**Economic Factors**

Significant economic factors affecting the Authority are as follows:

- Federal funding by the Department of Housing and Urban Development.
- Local labor supply and demand, which can affect salary and wage rates.
- Local inflation, recession, and employment trends, which can affect resident income and therefore the amount of rental income.
