REPORTING THE OVERALL CITY

The Statement of Net Position and the Statement of Activities

The government-wide statements report information about the overall City using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the government's assets and deferred outflows of resources and liabilities and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

One of the most important questions asked about the City's finances is *"Is the City of Norfolk in a better financial position at the end of this fiscal year, compared to last year?"* The Statement of Net Position and the Statement of Activities report information about the overall City and about its activities in a way that helps answer this question. These statements include all assets and deferred outflows of resources and liabilities and deferred inflows of resources using the accrual basis of accounting, which is very similar to the method of accounting used by most private-sector companies. These two statements report the City's net position, which is the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources, as one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net position are one indicator of whether its financial health is improving or deteriorating. Additional factors, such as changes in the City's property tax base and sales tax collections and condition of the City's infrastructure, are also important in making this determination.

In the Statement of Net Position and the Statement of Activities, the City is divided into two kinds of activities:

- **Governmental Activities** – Most of the City's basic services are reported here, such as Public Safety, Public Works, Library, Community Improvement, Parks and General Administration. Sales tax, revenue from lease of the City's electrical distribution system, property tax and grants finance most of these activities.

- **Business Type Activities** – The City charges fees to customers to cover the cost of these services. Included here are the City Water, Sewer, Solid Waste, and Stormwater funds.

REPORTING THE CITY'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds – not the overall City. Some funds are required to be established by State law or by bond requirements. The City Council also established funds to control and manage
