The City of Kearney adopts an annual appropriated budget for its general fund and major special revenue funds. A budgetary comparison statement has been provided for the general fund and all major special revenue funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 17-27 of this report.

Proprietary funds. The City of Kearney maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Kearney uses enterprise funds to account for its golf, solid waste disposal, sanitation, sanitary sewer, water, storm water, and airport. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Kearney's various functions. The City of Kearney uses internal service funds to account for its health and dental insurance benefits, property and casualty insurance, workers compensation insurance, central stores, and vehicle maintenance. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within the *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the golf, solid waste disposal, sanitation, sanitary sewer, water, storm water, and airport, all of which are considered to be major funds of the City of Kearney. Conversely, all five internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on pages 28-32 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City of Kearney. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City of Kearney's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 33-34 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 35-79 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*.

Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	213,635,023
Internal service funds are used by management to charge the costs of health and dental insurance, property and casualty insurance, workers compensation insurance, central stores, and vehicle maintenance individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	1,417,582
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.	(59,366,164)
Net position of governmental activities	$ 218,896,943
