NOTE 1 – BUDGETARY ACCOUNTING

The Village prepares its budget on the cash basis of accounting. Accordingly, revenues are recognized when cash is received, and expenditures are recognized when cash is disbursed. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this method of accounting, all unexpended appropriations lapse at the end of the budget year.

Amounts presented on the cash basis of accounting differ from those presented in accordance with the modified accrual basis of accounting due to the treatment of afforded accruals. A reconciliation for the year ended September 30, 2025, which discloses the nature and amount of the adjustments necessary to convert the actual modified accrual data to the budgetary basis, is presented below:
