Amounts reported for governmental activities in the statement of activities are different because								
Net change in fund balances - total governmental funds							484,882	
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the costs of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation was exceeded by capital outlay in the current period.							(190,535)	
The issuance of long-term debt (e.g., warrants) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the effect of this difference in the treatment of long-term debt and related items.							76,169	
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES							370,516	

See accompanying notes to financial statements.
