The statement of activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general receipts.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data about the financial statements and the School District commitments, contingencies, and long-term debt obligations that are not reported in the cash basis financial statements. The statements are followed by a section of Supplementary Information that further explains and supports the information in the financial statements.
