2. While testing utility billings, we noted that Wayne State College was being double charged ($70.25 per month) for their south sewer meter. We recommend correcting this base charge and refunding WSC for the duration they had been overcharged.

3. At September 30, 2024, a $23,962 receivable for natural gas franchise fees was recorded to accrue the September 30, 2023 quarterly gas franchise fee that was not deposited until October 2024. The check for this quarterly franchise fee was inadvertently put into a file for approximately one year before it was deposited. We recommend verifying that all cash receipts are deposited timely in the future.

Other Matters

We applied certain limited procedures to the Management Discussion and Analysis and the budgetary comparison schedules, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on the nonmajor governmental combining statements, the component unit combining statements, and the schedule of expenditures of federal awards which accompany the financial statements but are not RSI. With respect to the supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

Restriction on Use
